

Social Responsibility Statement 2022

We, Sensirion Automotive Solutions AG as the leading manufacturer of high-quality sensors and sensor solutions for the measurement of environmental conditions and as a driver of globalization, are willing to help ensure that markets, commerce, technology and finance advance in ways that benefit economies and societies everywhere.

We want to take on social responsibility:

- We commit ourselves to upholding the employees' human rights and treat them with dignity and respect.
- We minimize the risks of occupational health and safety with the necessary measures.
We are well prepared for any emergencies.
All our employees should go home healthy after work.
- Our production has to conserve natural resources and reduce emissions of pollutants. Our electricity and water consumption and emissions of greenhouse gases are expected to decrease by 5% per year and produced sensor.
We strive to meet customer requirements regarding pollutant levels at all times.
- To fulfil our social obligations and succeed in the marketplace, we are committed to upholding the highest ethical standards. We ensure that the cobalt, tantalum, tin, tungsten and gold in our products do not finance the armed forces in Congo and neighbouring countries.
- Our responsibility for labour, environment, health & safety and ethics is integrated into our management system. We want to go beyond our legal responsibility. In doing so, we are guided by the Code of Conduct of the Responsible Business Alliance (RBA). The Responsible Business Alliance is the world's largest industry coalition dedicated to supply chain responsibility.
